General Information

In 2011 the annual International student, postgraduate and young scientist conference «Lomonosov» will take place **from the 11th till the 15th of April** at Lomonosov Moscow State University.

The main aim of the conference is to develop student, postgraduate and young scientist creative activity, to involve them into solving problems of the day in science; to maintain and develop a single scientific and educational space, to establish ties between future colleagues.

The sections' council of experts will be headed by the leading scientists of Lomonosov Moscow State University. In 2011 the conference will consist of 33 sections and more than 280 subsections which reflect the main fields of modern science. We are glad to invite you to take part into Section Psychology.

More information can be found on the official portal of the conference "Lomonosov" - <http://www.lomonosov-msu.ru/eng/index.html>.

Co-chairmen of the Organizing Committee of the International Forum "Lomonosov-2011" are the Minister of Education and Sciences of the Russian

Federation **Andrey Fursenko** and the Rector of Lomonosov Moscow State University, Academician **Victor Sadovnichiy**.

Students (Specialists, Bachelors or Masters), postgraduate students, applicants and young scientists from any country who are under the age of 35 — students and employees of Russian and foreign universities, postgraduates and research workers are all invited to participate in the conference.

Those wishing to participate in the conference are expected to create an account on the portal of the conference "Lomonosov" (<http://www.lomonosov-msu.ru/eng/index.html>) and to apply for the participation by filling in the application form, in which you need to present abstracts of your work (1–2 pages in Microsoft Word format). The Form will be available **till the 25th of February 2011**.

Working languages of the conference "Lomonosov" are: Russian, English.

CDs –CD with full texts of **abstracts will be made**. Each participant will get a free copy of the CD. **One or two pages (in MS-word format, including the list of bibliography of your proceedings**, which you attach to your letter, will be checked by the expert committee members.

Residence & visas – there is a system of fees for visas in Russia at the moment. The total sum of these fees is approximately 50 Euro. The price of **a tourist visa** is nearly the same – about 50 Euro. But it is much easier and faster to get a tourist one. So we would recommend you to choose the tourist visa. As for residence, this year the University will not be able to offer a sufficient quantity of free rooms for participants. There will be only **200**. They will be provided to the authors of **the best** abstracts (in accordance with the decisions of sections' expert committees).

All the other participants will be offered to reserve a room in some Moscow hotels. We have prepared a list of those that are quite cheap, comfortable and situated not far from the University (all the sections of the conference will take place there). **Please, note that prices are given in Russian rubles**. There is a **choice of transport** which will bring to the hotel from the airport/railway station as well. The necessary information about residence (i.e. **which authors will get free rooms**) will be available by **15th of March**. Please take into consideration: **if you need visa support, we should get your application until 20th of February 2011**.
